

Press Release : Gardner-Gibson acquires GH International

June 27, 2011

On June 24, 2011, Gardner-Gibson, headquartered in Tampa, Florida acquired GH International, of Mississauga, Ontario, Canada.

As one of the largest manufacturers of roof coatings, blacktop sealers, caulks & sealants, wallcovering adhesives and specialty paints, Gardner-Gibson will bring its vast experience and quality products to the Canadian market.

In acquiring GH International, Gardner-Gibson will expand its ability to offer many products not previously available to GHI's customers and the Canadian market. This combination will enhance the products and services available, and also add additional resources through a team of devoted and skilled professionals. GH International also has several unique products that are a natural fit to be distributed in the US. This combination will ultimately benefit all customers of Gardner-Gibson and GH International.

About the companies:

Gardner-Gibson currently operates 12 manufacturing and distribution facilities, strategically located throughout the United States. Products include roof coatings, blacktop sealers, acrylic caulks & sealants, wallcovering adhesives and specialty paints.

GH International currently operates a manufacturing facility in Ontario, Canada. Products include roof coatings, blacktop sealers, acoustical sealants, wallcovering adhesives and specialty paints.
