

How to clean and degrease your driveway

USE DRIVEWAY KLEEN ACROSS A ENTIRE DRIVEWAY TO ENABLE ADHESION OF DRIVEWAY SEALERS.

USING GARDNER™ DRIVEWAY KLEEN™ TO CLEAN AND DEGREASE YOUR DRIVEWAY

1. Clear moss, dirt, leaves, branches and debris. Move vehicles and other valuables from driveway area.
2. Apply product at 50°F or higher, with little or no wind. If surface temperature is hot to the touch, spray driveway with clean water first.
3. Attach garden hose securely.
4. Turn on water to full pressure
5. Adjust red nozzle to either “CLEAN” position (sprays cleaning solution) or “RINSE” position (sprays clean water only)
6. Spray liberally to clean. Rinse with clean water.
7. Covers approximately 500 sq ft per bottle

Spot clean oil and grease spots with undiluted Driveway Kleen concentrate.

CLEANS AND PREPS CONCRETE, ASPHALT, BRICK, PAVERS, AND STONE FOR SEALING
